## Blood Donation

---

“Tears of a mother cannot save her Child. But your Blood can.” Your blood can prove to be red gold in the time of need. The needy can be anybody, your family members, your friends or even you. Millions of lives are saved every year when real life heroes act in life. To donate blood you don't need extra strength or extra food, you just need that extra motivation to help the mankind. Above all donating blood overhauls the blood system of your body removing the pathogens. So, it's kind of profit-profit situation. Join the noble cause of saving millions of lives. Donate blood. Purify your soul.

“Do you feel you don't have much to offer? You have the most precious resource of all, the ability to save a life by donating blood!” Continuing the legacy, Drishticone is here to help you share this invaluable gift with someone in need. The team is organizing a blood donation camp inside the college under the stewardship of Indian Red Cross Society. As a reward, the society certifies students as a blood donor blessing them with a chance to get blood in case they need it in future. The camp is scheduled to be held on 10th of April starting at 8:00 am. We expect sincere interest from your side.

### IMPORTANT FOR DONORS

#### PRECAUTION FOR DONATING BLOOD

##### Precautions while Donating Blood

Each year, thousands of generous people help others by donating blood and understand the importance of blood donation. Yet, many people are afraid of donating blood for reasons varying from worry about pain to be bothered about catching a disease. The reality is that donating blood is safe, as there are many precautions in place and there is no reason to fear a contagious disease.
